Ahmedabad, Gujarat, India

PROFILE

React Native developer with 7+ years of hands-on experience building mobile apps people actually use every day. Takes ideas from a rough sketch to a stable, fast app on both iOS and Android — React Native, Redux, TypeScript, Expo and Firebase — and cares most about the part users feel: an app that just works, every time they open it.

TECHNICAL SKILLS

React Native • Expo • Android Studio • Xcode • React.js • Next.js • Redux • Postman • HTML • CSS • Tailwind CSS • Firebase • TypeScript • JavaScript • JIRA • Asana • Git

AI Tools: Cursor, Claude, Codex | OTA Updates: Sentinel | QA & Testing: Maestro

PROFESSIONAL EXPERIENCE

Picwa Payroll Pvt. Ltd. (formerly Qualish Infotech)

Software Developer (React Native) | Aug 2019 – Present

Same company throughout: Qualish Infotech (India), Aug 2019 – Mar 2023; moved to PICWA (New Zealand), Mar 2023 – Present, by management.

PICWA — Mar 2023 – Present

- Led the development of a cross-platform mobile application for iOS & Android, improving efficiency by 40%.
- Implemented Redux for efficient state management, reducing data-fetching latency by 30%.
- Developed and maintained a reusable component library, accelerating feature development by 25%.
- Designed and built scalable UI architecture, including complex components like Tree, Slide-View, and Table Grid.
- Optimized app performance by reducing render cycles and improving API calls using Axios.
- Collaborated with cross-functional teams to resolve critical issues, reducing bug reports by 40%.
- Translated designs from the UX/UI team into interactive React Native components with responsive styling.
- Used Flexbox for layout styling, ensuring pixel-perfect UI across different screen sizes.

  Tech Stack: React Native, Redux, Firebase, Axios, Tailwind CSS, REST APIs.

Qualish Infotech — Aug 2019 – Mar 2023

- Built and shipped cross-platform apps for New Zealand clients, including Caregiver Manager and Caregiver Worker (caregiver booking and job matching with Stripe payments), TempMate Manager and TempMate Worker (field-worker platforms), and MyAlladin (online grocery with in-app payments and real-time order tracking) — React Native, Laravel, Firebase Authentication.
- Built a calendar-based service booking platform with single and recurring appointments (Mansons) and a sales territory tool with route optimization using the Google Place API (TerriTool).
- Built school management features for KHS (Kamo High School), covering timetables and important notices on iOS and Android.

PROJECTS

Portfolio Website (dhruvdave.in) — Personal website sharing knowledge and informative blogs on various topics. (Next.js, Tailwind CSS)

TestFCM.in — Tool for developers to test mobile push notifications without third-party services, using their own Server Key, FCM token and data. (Next.js, Tailwind CSS)

TerriTool — Sales territory management tool that optimizes routes for field sales representatives. (React Native, Laravel, Google Place API)

Mansons — Service booking platform with calendar-based single and recurring appointments. (React Native, Laravel, Microsoft Azure, Firebase Authentication)

PICWA — Internal app for employees to apply for leave, track leave status, view holidays and working hours.

(React Native, Laravel, Firebase)

KHS (Kamo High School) — School management app for timetables and notices. (React Native, Laravel, Firebase)

Caregiver Manager — App for New Zealand citizens and hospitals to request caregivers for daily needs. (React Native, Laravel, Firebase Authentication, Stripe Payment)

Caregiver Worker — Platform for individuals in New Zealand to register as caregivers and find jobs. (React Native, Laravel, Firebase Authentication)

TempMate Manager — Platform for field workers' managers in New Zealand. (React Native, Laravel, Firebase Authentication)

TempMate Worker — Platform for field workers in New Zealand to find jobs. (React Native, Laravel, Firebase Authentication)

MyAlladin — Online grocery store with multiple quantity purchases, in-app payments and real-time order tracking. (React Native (Expo), Laravel, Firebase Authentication)

SponsoredJobs.io — Platform helping non-U.S. citizens find U.S. jobs with visa sponsorship; 300,000+ verified listings. (React.js, Tailwind CSS, Supabase)

PERSONAL PRODUCTS

Rasoi — Indian recipes app with 7,900+ recipes; available as a website and an Android app. (React Native, Supabase) · Website · Google Play

Shubh Muhurat — Panchang app with offline almanac, choghadiya and muhurta; in closed testing. (React Native, Expo)

A Day Away — Countdown and occasion app with home-screen widget and share cards; in internal testing. (React Native, Expo)

Trivense — Expense-splitting app with paise-accurate settlements; in open testing on Google Play. (React Native, Expo) · Website · Google Play

Get Resume Score — Free ATS resume scorer (0–100) with Naukri/LinkedIn JD matching, missing keywords and paid kits from Rs. 69.

ScanRisk — Barcode scanning app that shows a product's details with a 0–50 risk score and plain-language explanations; food first. In development. (React Native, Expo)

EDUCATION

B.E. Computer Engineering

Silver Oak College of Engineering and Technology | 2014 – 2019
